Patients with one or more of the following conditions are unsuitable for a home sleep study: Neuropsychological, severe intellectual or physical disability conditions or where video confirmation is essential for diagnosis (parasomnias / RLS).

Sleep apnea is serious and if untreated, you may be at a higher risk of a stroke, heart attack or a serious workplace accident. Having a detailed sleep study is the first step toward getting your liveliness back and living the life you deserve. We provide an accurate and comprehensive take home sleep study allowing you to be in the comfort of your own bedroom environment. Your sleep study will be facilitated by qualified staff, scored by a sleep scientist and reported on by a sleep specialist. By dealing with us, you can expect quick results and expert advice on treatment options moving forward.
